To whom it may concern @ FDA

I know that you are soliciting comments from the public until February 15th. I want to go on record as a US citizen and resident.

I think it is VERY important to show trans-fat on Nutrition Labels on food. Please do show transfat as it's own category so that we, the public, can make an educated choice when we buy. It will NOT be more confusing at all. I am thrilled that you are finally going to do this, and support this idea 100%.

Thank you,
